

High School English Department Supply List

Note: Because annotating a book is an important reading skill, English students are **required** to purchase one book during the school year that they can annotate and keep. We have taken care to choose books that will be helpful not only in English class, but in later classes and college as well. Each book will be available through your child's English teacher at the discounted price shown below.

Please be aware that there may be other expenses associated with certain assignments and projects. We strive to keep these costs as low as possible.
