

**Del Valle Independent School District**  
**Administrative Regulations for Student Internet Use**  
**Recreational and Personal Use of Internet by Students**

The Superintendent has adopted the following Administrative Regulation to guide staff regarding recreational and personal internet use by students.

**Authority.**

This administrative regulation is issued pursuant to Board Policy CQ (LOCAL), ACCEPTABLE USE, which directs the Superintendent to develop and implement administrative regulations, guidelines, and user agreements regarding acceptable use of the District's electronic communications system, including the internet.

**Purpose.**

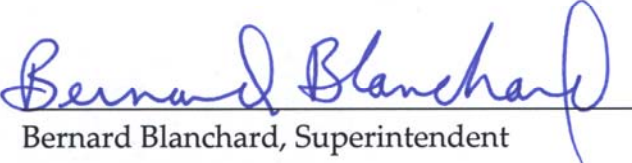

This regulation is intended to enhance students' education and avoid misuse or disruption of instructional time by placing reasonable limitations on recreational and personal internet use by students.

**Use of Computers During Instructional Time.**

Student use of school or personal computers or other electronic devices with internet connectivity for e-mail, text messaging, recreation, entertainment, or amusement during instructional time is strictly forbidden. Subject to this prohibition, students may use school or personal computers or other electronic devices with internet connectivity during instructional time only as specifically permitted by the teacher, administrator, or other person in charge.

**Effective Date**

This regulation is issued on 8-2, 2007, and is effective immediately.

  
Bernard Blanchard, Superintendent
